

Getting Started:

Downloading eBooks onto a Kobo Vox

You will need:

- Wi-Fi internet connection
- Adobe ID (free)

Checking out and using downloadLibrary's e-books and audiobooks from Overdrive on your Kobo Vox is easy. All you need is a free app called the OverDrive Media Console

Steps:

1. You will be required to create a free Adobe Account in order to download any eBooks to your device. Fill out the short form at www.adobe.com/cfusion/membership.
2. Start your Vox and touch the Home icon. Touch All Apps then Settings, then Wireless & Networks. Next to Wi-Fi, touch the checkbox to turn on wifi. Next to Wi-Fi Settings, choose an available network. Touch the Home icon to return to the home screen.
3. Touch the browser icon to open the browser and navigate to www.overdrive.com. Touch the link to Mobile Apps at the bottom right of the screen. OverDrive will recognize that the Vox is an Android device and will present you with a link to the Android Market. The Vox cannot connect to the Android Market. Instead choose the link that says If your device doesn't support Android Market, you can download OverDrive Media Console for Android from OverDrive. When the license agreement appears, choose I Agree. The app will begin to download and you will see a small download icon appear in the top left-hand side of your Vox screen.
4. Touch the Home icon on your Vox. Touch All Apps. Touch Downloads. In the list of downloaded items, touch ODMediaConsoleSetup.apk. A window will appear asking if you want to install this application. Touch install. Touch Open to run the ODMConsole app. OverDrive Media Console (OMC) will open. You may be prompted to adjust the settings to allow installs from unknown sources. A startup message may appear with information about updates to the version of the app you have downloaded.

To download ebooks to your Vox:

1. Browse for library ebooks, use the Vox browser, and visit downloadcentre.library.on.ca.
2. When you have found a title you want, select Add to Cart. If the title is already checked out by someone else, you may request it by selecting Place a Hold.
3. After you have added an available title to your cart, select Proceed to Checkout. Select your library which is Georgina Public Library. Login by entering your library card number. You can manage the lending period using the drop-down menu.
4. Select Confirm check out.
5. Touch the Download button under the item. The title will automatically download and open in the Overdrive app on your Vox. The first time you will be prompted to enter your Adobe ID and password to authorize your Vox.

To Return eBooks on your Vox:

1. Touch and hold down your finger on the title in the bookshelf view of the app. A screen will appear with the option to Delete the book.
2. Choose Return and Delete. The title can then be borrowed by another person. eBooks and audiobooks cannot be renewed.
